SOME GENERAL COMMENTS ABOUT THE SITE

Rules are displayed on site for your information but please note some of the key points below:

For Scouting overnights a Leader should ensure they have their "Nights Away Permit".

A tuck shop on site opens at pre-defined times, if you require this facility at other times please enquire. It is requested that users do not bring and run their own tuck shop.

SITE ACTIVITIES – *To enable programme and activity planning, all activities must be pre-arranged and booked in advance. The warden in charge of the site however has to retain authority to cancel activities for safety and/or other site specific reasons. Hence our recommendation that you have a foul weather programme considered in advance.*

Equipment for self run, on site activities is available; please ask (in advance) for details and availability. If you require ropes, spars, alter fires etc. consider listing these with your enquiry.
